

Our purpose

Empowering positive relationships and administering fairness in the rental sector by providing tailored information, education and regulation for all Queenslanders.

Customers value our services

because they are tailored to their needs and provide positive experiences

Provide smart digital services

that deliver easy to use, accessible and targeted service channels

Our vision

Renting that works
for everyone

Customer focused workforce

where our people are highly capable and agile to deliver services and support our customers

Business efficiency

focuses on business improvements, systems and resources to deliver streamlined services for our customers

Our purpose

Empowering positive relationships and administering fairness in the rental sector by providing tailored information, education and regulation for all Queenslanders.

Be a responsive Government

Queensland Government's Objectives for the Community

The RTA is committed to supporting *Our Future State: Advancing Queensland's Priorities* to 'Be a responsive Government' by providing easy to access services to support the residential rental sector.

We will respect, protect and promote human rights in our decision-making and actions.

Objective	Customers value our services	Provide smart digital services	Business efficiency	Customer focused workforce

Our opportunities

Service channels: Continuous innovation of the ways we deliver services will improve the renting journey for customers.

Digital innovation: Smart digital solutions will enable the RTA to deliver innovative, streamlined and easily accessible services.

Targeted services: Delivering targeted support services to Queenslanders who need it will provide greater value to the overall community because it will achieve an outcome where renting works for everyone.

Legislative reform: Supporting the Queensland Government to implement legislative reforms to better protect both tenants and landlords will improve housing stability for people in the private rental market.

Our key challenges

Changing sector: Not adapting to meet the needs of a growing and increasingly complex residential rental sector, that may periodically be impacted by unprecedented events, may lose the confidence of customers and stakeholders.

Technological change: Not keeping pace with technological change of digital systems and data security, may lead to data security breaches and redundant systems.

People: Not implementing strategies to ensure our workforce is highly capable, skilled and engaged, may lead to poor customer experiences.

Service value: Without anticipating and delivering services that meet customers' needs, we will not be able to continue to provide services valued by the Queensland community.
